

# DAY ONE

TUESDAY 14th NOVEMBER 2023

---

## 10:30 - 12:00 ARRIVAL & REGISTRATION

Lecture Theatre & Upper Gallery

10:30 Welcome

10:40 Opening address: Jenni Minto MSP

11:00 Prof. Sandro Galea: Within reason? Ensuring public health matters in coming decades

---

## 12:10 - 13:10 PARALLEL SESSION A

### Environment, pollution & second-hand smoke

Lecture Theatre

Chair: Danielle Maccarthy

Kathryn Ashton

Capturing the health and well-being impact of climate change: a Health Impact Assessment in Wales

Wako Golicha Wako

Validity, Reliability and Acceptability of Wearable Sensors to Monitor Personal Exposure to Air Pollution & Pollen Substances: A Systematic Review

Rosie McEachan

A city collaboratory model to translating evidence into action: pollution & the Bradford clean air zone

Rebecca Howell

Use of nicotine replacement therapy to reduce children's exposure to second-hand smoke in the home: a qualitative pilot study involving local community pharmacies

---

### Managing commercial interactions in prevention research: views, experiences & ways forward

Upper Gallery

Gemma Mitchell

Alcohol industry involvement in research: exploring current norms and policies around in-kind contributions using a recent case study

Lauren Carters-White

UKPRP researcher views on the management of commercial interactions

Nason Maani

Increasing understanding related to conflicts of interest: Evidence in action

Niamh Fitzgerald

Experiences from diverse recent processes to develop policies on managing commercial interactions

---

### Engaging communities with prevention research

Scott Room

Ellen Stewart  
Shahid Islam  
Carol Porteous

Engaging communities with research for prevention, not cure

---

ORAL PRESENTATIONS

SYMPOSIUM

WORKSHOP

### ORAL PRESENTATIONS

**12:10 - 14:00 LUNCH**

**14:10 - 15:10 PARALLEL SESSION B**

#### **Policy impact on health**

Lecture Theatre

Chair: Ladan Hashemi

Roberto Valiente

Modelling the impact of potential licence schemes to regulate tobacco sales and the retail environment in Scotland

Aalaa Jawad

Holding us back: advocacy in practice for a coherent policy approach to tobacco, alcohol and foods high in fats, salt or sugar

Anna Le Gouais

How to create healthier places: a multi-disciplinary qualitative study exploring the complex system of urban development decision-making

Kathryn Ashton

Capturing the health and well-being impact of a free trade agreement: the common and progressive transpacific partnership agreement (CPTPP)

### SYMPOSIUM

#### **Text analytics in prevention research from a violence, health & society project**

Upper Gallery

Angus Roberts

Development of an application to extract and categorise mentions of domestic violence from mental healthcare records

Ava Mason

Ascertaining reported experiences of domestic violence in routine mental healthcare records and resulting distributions of reports by diagnosis

Lifang Li

Leveraging social media data to analyse users' experiences of violence & their emotional responses

### WORKSHOP

#### **Impact planning (and evaluation)**

Scott Room

Daniel Black  
John Coggon  
Kersten England  
Elly King

Realising and recording impacts for the public's health: Embracing opportunities and responding to challenges within UKPRP research

### ORAL PRESENTATIONS

#### 15:20 - 16:20 PARALLEL SESSION C

##### Integration of research & practice

Lecture Theatre

Chair: David Williams

Emma Bird

Integrating health in local plans: an impact evaluation

Anna Le Gouais

Bridging the gap from research to practice: the role of a Researcher-in-Residence

Eleanor Eaton

Influencing urban planning decision-making through demonstrating health impacts of changes to the built environment: a co-designed intervention

Caglar Koksall

Bridging the Implementation Gap: The Role of Public-Private Partnerships in Health Creation through Urban Planning

### SYMPOSIUM

##### A systems approach in an Unhealthy Urban Development project

Upper Gallery

Geoff Bates

Developing shared understandings about health and urban development systems in a large transdisciplinary team

Pablo Newberry

Mapping the system influencing the consideration of health in urban development decision-making

Krista Bondy  
Martha Jordan

Shaping mindset change by linking power and norms - a systems approach to conceptual work

### WORKSHOP

##### Climate change & health

Scott Room

Megan Cook  
Ruth Jepson

Climate change and its interactions with public health:  
Developing a research agenda for a brighter future

### DISCUSSION

#### 16:20 - 16:50 BREAK - COFFEE & POSTERS

17:00

##### IN CONVERSATION WITH...

Lecture Theatre & Upper Gallery

In conversation with... UKPRP Consortia: John Wright, Ruth Hunter, Tim Hobbs, Petra Meier, Linda Bauld, Mathew Hickman, Gene Feder

#### 18:00 - 19:30 RECEPTION

---

### ARRIVAL & REGISTRATION

---

#### 09:30 - 10:30 PARALLEL SESSION D

---

##### Policy & decision making

Lecture Theatre

Chair: Lauren Carters-White

Damon Morris

Estimating the impact of the UK Government's proposed change to a strength-based alcohol duty system on health outcomes in England: A modelling study

Ioana Vlad

The NOURISHING and MOVING policy index: assessing nutrition and physical activity policy in 30 European countries

Cat Papastavrou Brooks

The Role of Emotion in Urban Development Decision-Making: Exploring the Perspectives of Decision-Makers

Jennifer Llewellyn

Evidence and gap maps as a policy support tool: usable and understandable?

##### Applied prevention research

Upper Gallery

Chair: Estela Capelas Barbosa

Faye Tucker

"I don't think it's just parents": reflecting on parental insights into healthy lifestyles

Selin Akaraci

Exploring the Relationship between Green and Blue Space Exposure and Birth Outcomes: An Evidence Gap Map

Martine Miller

Bridging the "divide" between Researcher and Peer Interviewers: Reflections from a participatory research study to design a tailored smoking reduction service for people in recovery from problematic drug and alcohol use

##### Participatory group model building

Scott Room

Ediane Santana de Lima

Introduction to participatory and systemic co-design

Megan Keenan

Katie Potter

Nirandeeep Rehill

---

ORAL  
PRESENTATIONS

ORAL  
PRESENTATIONS

WORKSHOP

**10:30 - 11:00** BREAK - COFFEE & POSTERS

**11:10 - 12:10** PARALLEL SESSION E

ORAL  
PRESENTATIONS

**Children &  
young people**

Lecture Theatre

Chair: Liina Mansukoski

Kimon Krenz

Unveiling Spatial Inequalities in Early Childhood Education & Care Accessibility in Tower Hamlets

Natalia Concha

Food Improvement Goals in Schools (FIGS):  
A focused ethnography with primary school children in Tower Hamlets

Halima Mohamed

Understanding the epidemiological evidence of autism spectrum disorder in Children born to Somali families in the UK & the world. A scoping review protocols

Dora Machaira

Adolescent wellbeing & meaningful engagement: lessons from Yorkshire & Humber

WORKSHOP

**What can be done to  
address the main  
challenges**

Upper Gallery

Philip Garnett  
Leandro Garcia  
Jeremy Hilton

Systems Approaches for Prevention Research

WORKSHOP

**Interactive & reflective  
forum for researchers on  
how to address the issue**

Scott Room

Alexandria Innes  
David Innes  
Elizabeth Such

Confronting Systemic Racism in Prevention Research

### ORAL PRESENTATIONS

#### 12:20 - 13:20 PARALLEL SESSION F

##### Tobacco & Cannabis

Lecture Theatre

Chair: Andreas Hoehn

Lucia D'Ambruoso

Cost-of-living/cost of smoking: cooperative learning on NCD health inequalities in deprived communities within the cost-of-living crisis

Sarah Dance

Public health interventions for alcohol, tobacco & ultra-processed food consumption in lower socioeconomic position groups: A critical umbrella systematic review

Tessa Langley

The potential smoke-free dividend for smokers across local areas in England: A cross-sectional analysis

Rachel Barry

Challenges achieving horizontal coherence across health & public security in the formulation of Uruguay's cannabis regulation

### WORKSHOP

##### Challenges & successes in a systems approach

Upper Gallery

Elly King  
Roberto Villegas-Diaz  
Hannah Burnett  
Wendee Zhang

Lessons Learnt from Partnership Working in Liverpool

### WORKSHOP

##### Team Science

Scott Room

Ges Rosenberg  
Pablo Newbery

Developing a Reflective 'Team Science' Approach to Inter/Transdisciplinary Research - How 'research on research' might be used to improve practice

#### 13:20 - 14:20 LUNCH

### KEYNOTE

14:30

##### KEYNOTE SPEECH

Lecture Theatre & Upper Gallery

Alison Cox: A World Out There:

NCD prevention research in the Global Health & Development Policy Agenda

### ORAL PRESENTATIONS

#### 15:40 - 16:40 PARALLEL SESSION G

##### Applying systems perspectives to prevention research

Lecture Theatre  
Chair: Alex Nurse

Amber van den Akker	A participatory systems mapping approach to gain insight into the factors driving unhealthy commodity industry involvement in public health policy formulation in the UK
Annika Hjelmskog	Using Doughnut Economics to create a root definition for a thriving city: a soft systems methodology (SSM) approach for Glasgow, 2023
Jonathan Stokes	Understanding the social determinants of health as a system
David Alexander Veres	Evidence Based System Maps Representations of Health Inequalities Among Local Authorities - a Data Driven Approach

### ORAL PRESENTATIONS

##### Innovative methods

Upper Gallery  
Chair: Roberto Valiente Borox

Andreas Höhn	A synthetic household-level population for Great Britain
Estela Capelas Barbosa	Using look-alike modelling for data integration in violence research
Mhairi Campbell	Updated guidance on using natural experiments to evaluate population health
Sinead Currie	Using a co-design approach to promote awareness of preconception health in central Scotland

### WORKSHOP

##### Proposed framework for future prioritisation & actions

Scott Room

David McColgan Alison Douglas Jamie Pearce	A 10-year vision for public health prevention in Scotland
--	---

#### 16:45

#### CLOSING REMARKS
